

COMMENTS TO FCC:

As a resident of the local community of Idaho Falls, K-LOVE serves as a positive and encouraging station that offers inspirational music for all ages. This station is listener supported and desired by many in this community. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, many radio listeners would discontinue listening to radio altogether. It is definitely a much needed and requested radio station in this particular area reaching many new listeners everyday and providing healing and support through its music to a hurting community.
